*The most successfully written grant applications bring together
the needs of crime victims, the agency and the VALE Board in one coherent and logical plan.*

17th JUDICIAL DISTRICT VICTIM ASSISTANCE & LAW ENFORCEMENT FUND 2019 GRANT FUNDING PROCESS

GENERAL INFORMATION

The 17th Judicial District Victim & Witness Assistance and Law Enforcement (VALE) Board is authorized to enter into contracts for the purchase and coordination of victims and witnesses assistance services with persons or agencies that the Board deems appropriate.

The priority of use of 17th Judicial District VALE funds is for the provision of services and programs listed in C.R.S. 24-4.2-105 and the implementation of the rights afforded to crime victims as set forth in C.R.S. 24-4.1-302.5.

The 17th Judicial District VALE Board has also established the following local funding priority:

Programs providing direct services to victims of crime in both Adams and Broomfield Counties.

The 17th Judicial District VALE Board accepts and considers grant requests submitted for new projects on an equal basis as those received for projects that are requesting funding continuation. Factors other than those stated above may also be utilized in making final funding decisions. Funds may be awarded for projects not designated in the priority categories. The fact that an applicant meets eligibility requirements and applies for services within a priority funding category does not guarantee funding.

The application form being used for 17th Judicial District VALE grant requests for 2019 can only be accessed through the link found on the VALE website at www.17vale.org. The 17th Judicial District VALE Board will not be accepting 2019 grant applications submitted on any other forms, or in any other format, than the one through ZOOMGrants. **Failure to complete the current and correct grant application form through the ZOOM Grants application process will result in denial of 2019 grant funding consideration by the VALE Board.**

The following guidelines are for grant applicant reference and / or use as in preparing the grant application for funding consideration of 17th Judicial District VALE Project / Personnel requests. Compliance with grant application guidelines will not guarantee funding. Please read the applicable statutes, the entire application and guidelines before writing the grant application. We hope that this guide provides useful information and will be beneficial in completing the 2019 VALE grant application for 17th Judicial District VALE funding consideration.

GRANT APPLICATION WRITING TIPS

- A. Plan ahead.** Create a detailed work schedule that includes due dates for writing, editing, making changes and corrections, re-editing, proofreading, obtaining necessary signatures and photocopying. It may help if only one person has the authority to direct the workflow associated with writing the grant application – if you have more than one, you run the risk of creating two different products and missing the application deadline. Keep in mind the general law of project design: *It always takes longer to do something than you think it will!*
- B. Use clear and concise language.** When you are writing the grant application, always fully define any abbreviations or jargon that you use. The grant application should be neat, clean and easy to read. Proofread for typographical and grammatical errors in the final copy.
- C. Be thoughtful when cutting and pasting from a previous grant.** Be sure to update all relevant information, particularly statistical data and contact information. *Remember: You will not have an opportunity to clarify, correct, change or add to the grant application after it is submitted.*
- D. Proof read** and then have someone unrelated to your work read the proposal. Merely passing the grant around your agency has limitations. Staff and volunteers may think they know what you mean or may be less than critical because of your role in the agency (or theirs).
- E. Be succinct.** Sometimes less really is more. A successful grant application will be just long enough to clearly communicate the purpose and impact of proposed project / personnel services. All goals / objectives / performance measures / budget will be limited to expenses directly related to the 17th Judicial District VALE Project / Personnel requested for funding consideration.
- F. Avoid unsupported assumptions.** Assume that the 17th Judicial District VALE Board knows nothing about the proposed project / personnel, the grant applicant agency and about the victim service community need(s) that the grant funded project / personnel addresses *even if this is a request for continued funding.* There may be new Board members reviewing grant applications unfamiliar with prior project / personnel services. Any “beliefs” expressed in the grant application should be supported by **evidence, current local statistics and / or other factual documentation.** Provide sufficient evidence to demonstrate that the grant applicant agency has the requisite ability to sustain and offer the proposed project / personnel services. The grant application will not provide space for pages of tables, charts and graphs. Provide reference cites and sources of data in the body of the grant application, particularly where required to do so. Use and refer to measurable outcomes, particularly measurable outcomes of the proposed services for victims as expressed and experienced by victims, whenever possible.
- G. Respond to every question whether applicable or not.** Never leave a section or question blank; write “N/A” instead. **If a question does not have an answer, the grant application will be considered INCOMPLETE.**

GENERAL 17th JUDICIAL DISTRICT VALE GRANT APPLICATION GUIDELINES

IMPORTANT NOTE: *You will not have an opportunity to make additions, changes or corrections to the grant application after it has been submitted. The Board will make their funding decision based upon the grant application that is submitted.*

Before you begin, review these basics

- **Read the statutes** that govern the funding determinations of the VALE Board. These are ***Colorado Revised Statutes 24-4.2-101 and 24.4.1-302***. Copies of state statutes related to the allocation of VALE funds are available on the Colorado State Government webpage at www.state.co.us
- **Review the proposed activities of the project to determine applicability pursuant to state statutes and based upon the information contained in the 2019 Request for Proposal.**
 - a. *Is the request for **direct services** or related to the provision of direct services **to crime victims**?*
 - b. *Is the need for the proposed project **evidence based**?*
 - c. *Is the need **substantiated by current local statistical data**?*
 - d. *Is the project one that your agency will **provide in-kind support** to ensure success of services during and after grant funding?*
 - e. *Is your plan for **managing the project** realistic and reasonable considering personnel, time and fiscal resources currently available?*
 - f. *How will the project **measure the difference** grant funded services will make for a crime victim **from the crime victim's perspective**?*
- **Read through these guidelines** and call or email either the VALE Program Administrator or the VALE Grant Administrative Manager early, and often, when there are questions. This contact information is on the first page.
- **Comply with the VALE Grant Application format.**
 - A. **The 2019 grant application is only available via a link provided on the website of www.17vale.org**
All narrative questions have specified word limits to make the grant application writing, and Board reading, process smoother. ***Please be aware that this format does not allow for spell checking. We recommend typing the content of the application in a separate Microsoft Word document, then copy and paste the information into the application after spell checking and proof reading.***
 - B. Responses are limited to the space provided in the grant application. Documents are limited to what is required. The 17th Judicial District VALE Board will not consider any supplemental documents and / or information other than what has been required or is included in the grant application.
 - C. Grant applicants **MUST PROVIDE A RESPONSE TO EVERY QUESTION**. If a question is left blank, the ZOOMGrants system will not allow you to submit the grant application. There are questions in the BUDGET Section that require a numerical, not dollar sign, response. Simply enter the numerical response required.
 - D. **PAY ATTENTION TO THE SPACE AND INSTRUCTIONS PROVIDED FOR THE BUDGET NARRATIVE:** If you do not provide a complete, itemized and accurately calculated budget narrative for every line item requested for grant funding consideration, the grant application will be considered incomplete.

GRANT APPLICATION FORM

You may notice that throughout the grant application form, and these guidelines, there are repeated references to the *Grant Funded Project / Personnel*. The purpose of this wording is to highlight the **focus** of the grant application: ***Specific services to be funded, and / or to be provided by designated personnel, to victims of crime in the 17th Judicial District as opposed to the wider scope of all services provided to victims by the agency in the 17th Judicial District or otherwise.***

There are a select few questions in the grant application that are directed towards the grant applicant agency as a whole; these questions will contain the word AGENCY. The majority of the grant application is information focused on the Grant Funded Project / Personnel specific to the 17th Judicial District. The grant application may be for specific agency supplies and operating expenses and / or for designated personnel; in these cases, the “project” will be the services being provided that are linked to the supplies and operating expenses and /or that are being provided by the designated personnel. All goals, objectives, performance / victim impact measures and budget line items, including personnel, must correspond to one another and be limited to service delivery in the 17th Judicial District.

GRANT APPLICATION QUESTIONS

REMEMBER EVERY QUESTION MUST BE ANSWERED FOR THE GRANT APPLICATION TO BE CONSIDERED COMPLETE WHEN SUBMITTED.

1. **APPLICANT AGENCY DESCRIPTION**

Provide a brief, concise description of the grant applicant agency's purpose and capacity to ensure proposed grant funded services are delivered to victims of crime in the 17th Judicial District. This may include the agency's mission statement as it relates to direct services to victims and this project, the year of establishment, the types of clients currently being served, current services provided to victims of crime, the agency's area of expertise in regard to the proposed activities of the project, and the agency's organizational capability to manage the grant. The purpose of this question is to clearly and succinctly document the agency's willingness and ability to support the 17th Judicial District VALE Funded Project / Personnel including the effective service delivery and responsible management of VALE grant funds.

2. **STATEMENT OF GRANT FUNDED PROJECT/PERSONNEL VICTIM SERVICE NEED**

Using *local, factual data* to *identify and substantiate* the specific need(s) of crime victims in the 17th Judicial District that the grant funded Project / Personnel will address. The information provided in this response serves as a bridge connecting the Applicant Agency Description (question #1) and the Grant Funded Project/Personnel Request (question #3), and sets the stage for the project's goals, objectives and budget line item requests. In preparing this response, use **current statistics involving the communities within the 17th Judicial District**. Please do not include national statistics - even statewide statistics have minimal relevance in responding to this question. Relevant statements from local authorities may be useful as may reference to connections with local initiatives and service providers. *If you are requesting funds for a new project, identify the other agencies in the community that are in agreement that this is a needed service.*

A complete response to Question # 2 will include:

- What specific services are needed;
- Who needs these services;
- What local, factual documentation (data) exists for the service(s) need and where did you find this data / documentation;
- How does / will the Grant Funded Project / Personnel impact the need(s) of crime victims in the 17th Judicial District?
- What is the reason(s) that your agency is the best or most logical organization to provide these services in the 17th Judicial District?

3. **GRANT FUNDED PROJECT / PERSONNEL REQUEST**

REQUIRED ATTACHMENT TO UPLOAD:

Agency classification and job description for each position being requested for VALE funding.

All Grant Funded Project/Personnel Goals, Objectives, Process and Victim Outcome Measures and Budget line items should be directly related to the information provided in the response to Question # 3.

This question is *not* asking for information regarding *all* victim services provided by the agency; it is *only* asking for information *specific* services requested for funding by 17th Judicial District VALE.

A complete response to Question # 3 will include:

- 1) Reason(s) the Grant Funded Project / Personnel is in compliance with (fits) the statutes and funding priorities that guide the decision making process of the 17th Judicial District VALE Board.
- 2) A clear and succinct description of exactly WHAT services are being provided WHERE / WHEN by WHO to WHOM and HOW (how much, how often, how delivered).

Follow the Arrows for a Successful Grant Application:

The What / Where / When / Who / Whom / How

→ becomes Grant Funded Goals and Objectives

→ identifies Budget line items.

EXAMPLES: VALE grant funds may be requested for the salary and benefits of one full-time victim advocate of a law enforcement victim services program. Therefore, the Grant Funded Project / Personnel request outlines ONLY the services to be provided by the one full-time victim advocate.

VALE grant funds may be requested to fund a portion of mental health expenses for a victim services agency. Therefore, the Grant Funded Project/Personnel Request outlines the services to be provided that require VALE funding of the supplies and operating expenses being requested.

Again, include in the response to Question #3:

- What services will be provided;
- Where will these services be provided;
- When will these services be provided;
- Who (Job title rather than individual's name) will be providing the services;
- Whom is receiving the services; and
- How are services being delivered? How many services? To how many victims?

4. 1st TIME GRANT REQUESTS

A 1ST time or new grant request is defined as a grant application for a Grant Funded Project / Personnel not previously funded by the 17th Judicial District VALE Board.

A complete response to Question # 4 will include:

- If services and/or personnel are currently being funded, identify the current funding source; explain why this funding source will no longer be available in the next fiscal year; explain the reason(s) 17th Judicial District VALE is the most appropriate funding source to assume the costs of this service/personnel
- If training and/or equipment is being requested, explain how the items are not routine, ongoing operating agency expenses and the reason(s) 17th Judicial District VALE is the most appropriate funding source to pay for these expenses.

5. CURRENT GRANT FUNDED PROJECT/PERSONNEL REQUESTS

Describe any Grant Funded Project/Personnel changes (services, personnel or budget line items) in this grant application for CALENDAR Year 2020 that are different from the current funding CALENDAR Year (2019).

For any increased funding requests, total or budget line item, the following must be included:

- Identify the specific budget line item(s) to be increased.
- Provide a brief and concise justification for the increase that demonstrates the increase is directly related to achieving the goals and objectives of the Grant Funded Project / Personnel.
- Provide supportive, verifiable data that change(s) were based upon.
- Address reason(s) 17th JD VALE is the most appropriate source to fund changes.

6. GRANT FUNDED PROJECT / PERSONNEL PROJECT CATEGORIES

Please check all categories that apply to the Grant Funded Project / Personnel ONLY.

The order in which these categories are listed are for classification purposes only and do not reflect any priority which the Board may give to any grant application request when making funding determinations. Checking more categories, or which particular category is checked, will not place a grant application higher or lower for purposes of 17th Judicial District VALE funding consideration.

√ **VALE STATUTORY SERVICES**

The purpose of identifying and measuring victim impact outcome(s) is to assess the discernable difference Grant Funded Project/Personnel services directly have for a crime victim as reported by the crime victim.

Victim impact outcomes examine *the change* victims experience as a result of the program / project services or activities. Refer to “2019 VALE GRANT AWARD VICTIM OUTCOME MEASURES” in the Grant Guidelines Appendix for more information regarding victim outcome measures.

Information regarding victim impact outcomes connect the hours of work performed by Grant Funded Project Personnel (effort) to concrete changes in people’s lives (results).
